## PROFESSIONAL SUMMARY

Full Stack Engineer with five years of experience working in small and large teams to develop scalable, user-centric, and feature-rich web experiences. A self-motivated and lifelong learner familiar with modern web development technologies.

## WORK EXPERIENCE

### Software Engineer, Hubly Inc

Jul 2022 – Present

- Achieved an 8% increase in sign-ups by automating a human-led process through cross-functional teams collaboration and a new sign-up experience.
- Developed a conditional logic based on dynamic forms created by users
- Developed a robust template marketplace library that empowered 6 partners to publish content seamlessly, enhancing partner visibility and driving engagement for Hubly's collaborative marketing efforts.
- Developed a data synchronization for CRM meetings that resulted in zero manual entries, enhancing the accuracy of customer interactions and enabling instant access to relevant information.
- Technologies: React, JavaScript, Django, Python, GraphQL, AWS

### Software Engineer, BTG Pactual

Jan 2022 – Jul 2022

- Spearheaded the development of an internal software tool designed for monitoring financial transactions.
- Led a UI/UX redesign in collaboration with UX Designers and stack holders.
- Implemented a real-time traceability system integrated with AWS SQS (Simple Queue Service) and AWS SNS (Simple Notification Service), enhancing our system's efficiency and responsiveness
- Technologies: Angular, TypeScript, .NET, AWS, MongoDB

### Software Engineer, DTI Digital

Jul 2021 – Jan 2022

- Worked on a White label e-commerce website for Brazil's largest wholesale company, assuming a full-stack role.
- Frontend team code reviews and played an integral role in overseeing scrum ceremonies
- Technologies: React, TypeScript, PostgreSQL, Nest JS

### Software Engineer, Vallourec

Jan 2021 – Jul 2021

- Oversaw a critical production site traceability system, playing a pivotal role in its maintenance and enhancement
- Collaborated closely with on-site teams on the design and implementation of new features.
- Technologies: C#, .NET, PostgreSQL

### Software Engineer Intern, Vallourec

Feb 2020 – Jan 2021

- Responsible for the full software development lifecycle, encompassing the development, maintenance, and successful deployment of production code.
- Technologies: C#, .NET, PostgreSQL
